KEY FEATURES

Durable daylighting for modern construction

LIGHT TRANSMISSION

High light transmission creates bright, open spaces and saves electricity.

IMPACT RESISTANCE

Outstanding strength, with impact resistance many times greater than ordinary glass.

UV PROTECTION

A UV protective layer blocks ultraviolet radiation, protects health and extends service life.

WEATHER RESISTANCE

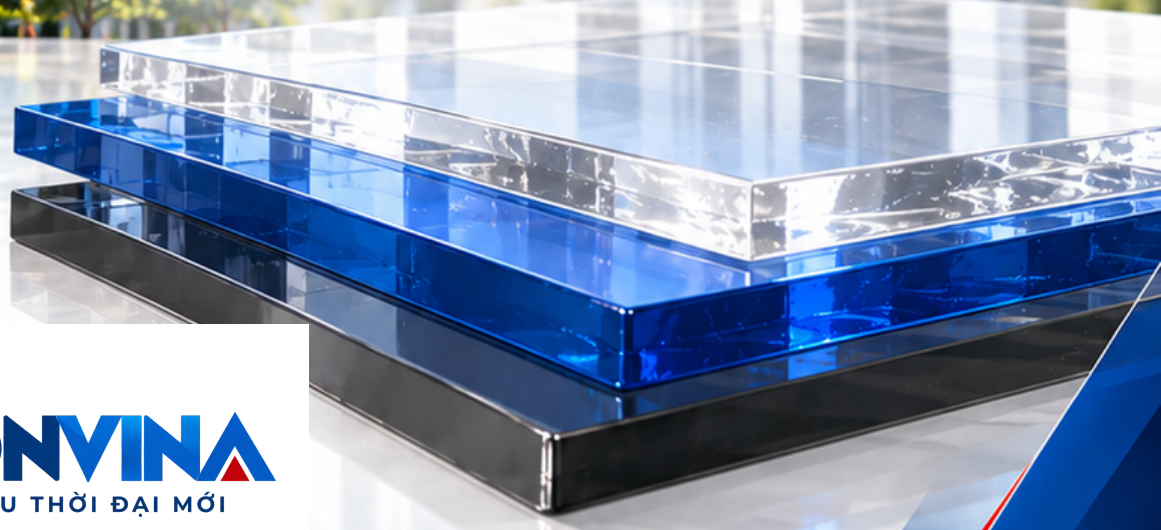

Withstands sun, rain and harsh temperatures, resists yellowing and maintains lasting clarity.

EASY INSTALLATION

Lightweight and easy to cut, bend and install, saving time and cost.

HIGH AESTHETICS

A flat, clear surface and varied colours suit many modern architectural styles.

MANUFACTURING & QUALITY CONTROL

Advanced technology - Strict control - Consistent quality

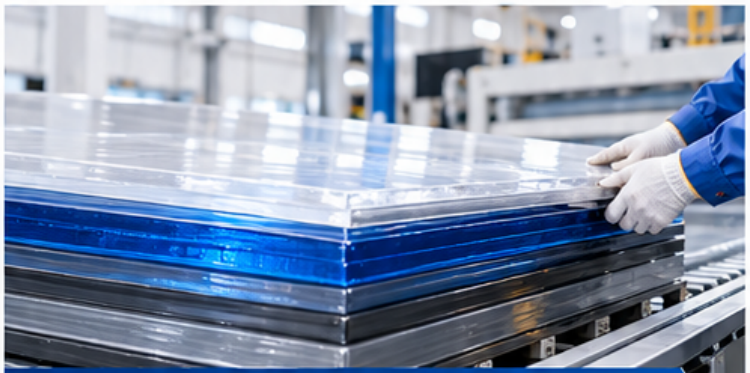

LION POLY operates modern production lines with advanced technology and strict quality management under ISO 9001:2015 and TCVN 10103:2013. Each polycarbonate sheet is carefully controlled from raw materials through production to the finished product, ensuring consistent quality, durability and compliance with technical standards for modern construction.

MODERN PRODUCTION LINE
Advanced, highly automated technology ensures precision and consistent quality.

STRICT QUALITY CONTROL
Thickness, dimensions, optical and mechanical properties are checked to ISO 9001:2015 - TCVN 10103:2013.

CONSISTENT, UNIFORM PRODUCTS
Precisely manufactured polycarbonate with a smooth surface and even colours for varied needs.

PROFESSIONAL PACKING & DELIVERY
Secure packaging protects sheet surfaces during storage and delivery to the project.
